Hoy Multimedia

Frontend developer, intern

At Hoy I have actively contributed to numerous live projects mostly built with Next.js and Sanity but also some Wordpress. The team at Hoy are very focused on usability, performance and accessibility.

non-web

Jun 2022 → Now

Stigbergets Shangri La

Shift manager, service

Responsible for the operation of front of house in the absence of the manager. My years in hospitality have taught me a lot about working with people, good service and professionalism.

Mar 2021 → May 2022

Uniqlo

Visual merchandiser

Responsible for the appearance of the store and mannequins. Rolling out the brand's visual identity using styling and decoration. A mix of implementing predetermined campaigns and improvisation.

SE

Medieinstitutet

Frontend developer, 2 year vocational course

Medieinstitutet prepared me well for working life with a good ground in current technology and methodology. We have worked extensively in React and have touched on UX, backend and much more.

GB

Falmouth University

Graphic Design, Bachelors Degree

A three year degree in conceptual thinking and visual communication. At Falmouth we covered a broad range of design disciplines, I found myself most interested by typography and experience design.
